MASONRY MONDAY SEMINAR SERIES

GENERAL CONCRETE SURFACE PREPARATION

- Seminar Date:** Monday April 2, 2012
- Seminar Title:** **General Concrete Surface Preparation**
- Time:** 11:30 – 11:55 a.m. Check-in
11:55 a.m. – 1:00 p.m. Seminar & Lunch
- Location:** International Masonry Institute / BAC District Council Training Center
2140 W. Corporate Drive, Addison, IL 60101
- Cost:** Free with pre-registration
- Meal:** Lunch is provided by MAPEI
- Presenter:** Matthew Nordloh, CSI, CDT, MAPEI
- Description:** Engage in a discussion of industry standards and guidelines regarding substrate preparation for installation of concrete based underlayments and toppings. These may be finished floor systems (toppings) or part of a system prior to subsequent installations of ceramic, resilient, VCT or other finished floor installation. Participants will be exposed to the correct process of inspecting a substrate to determine required preparation (repairs), moisture vapor emission analysis and testing methods, and methods of mechanical preparation prior to the installation of an underlayment or topping.
- Education:** This program meets state of Illinois and AIA/CES requirements for continuing education, and qualifies for 1.0 Learning Units.
- Registration:** Register online at <http://goo.gl/QXieB>. Space is strictly limited to the first 75 registrants, so register early. For additional information IMI at (630) 396-3144 or sconwell@imiweb.org
