MASONRY MONDAY SEMINAR SERIES

BRICK DETAILING – BACK TO THE BASICS

Seminar Date: Monday May 7, 2012

Seminar Title: **Brick Detailing – Back to the Basics**

Time: 11:30 – 11:55 a.m. Check-in
11:55 a.m. – 1:00 p.m. Seminar & Lunch

Location: International Masonry Institute / BAC District Council Training Center
2140 W. Corporate Drive, Addison, IL 60101

Cost: Free with pre-registration

Meal: Lunch is provided by Brick Industry Association

Presenter: Brian E. Trimble, PE, LEED AP

Description: Brick design and detailing are fairly well understood, but there are a lot of myths about how to do things right. This seminar will discuss the basics of brick detailing in light of new information regarding building science and high performance buildings. Do flashing details change as air barriers and more insulation is used in a brick cavity wall? Are there new wall tie recommendations for wider cavities now that we are insulating walls more? What details are available to help reduce thermal bridging in walls? All of these questions and more are answered in this presentation.

Education: This program meets state of Illinois and AIA/CES requirements for continuing education, and qualifies for 1.0 Learning Units including 1.0 HSW LUs.

Registration: Register online at <http://goo.gl/ndNEq>. Space is strictly limited to the first 75 registrants, so register early. For additional information IMI at (630) 396-3144 or sconwell@imiweb.org.
