## MASONRY MONDAY SEMINAR SERIES

---

### BULK WATER MANAGEMENT DETAILING

- Seminar Date:** Monday December 10, 2012
- Seminar Title:** **Bulk Water Management Detailing**
- Time:** 11:30 – 11:55 a.m. Check-in  
11:55 a.m. – 1:00 p.m. Seminar & Lunch
- Location:** International Masonry Institute / BAC District Council Training Center  
2140 W. Corporate Drive, Addison, IL 60101
- Cost:** Free with pre-registration
- Meal:** Lunch is provided by Sto Corp.
- Presenter:** Jeff Diqui, BEC, CSI, LEED GA, Sto Corp.
- Description:** This course presents air & moisture barriers: bulk water entry prevention, causes of leaks, and how to detail to prevent leaks in wall construction. It explains the Leak Triangle & defines the five forces that cause bulk water entry. Attendees will comprehend the 3-D Approach consisting of “Deflect - Drain – Dry” and relate it to the Leak Triangle. Attendees will learn to employ detailing to prevent bulk water entry, and integrate a fluid-applied air/moisture barrier into their details.
- Education:** This program meets state of Illinois and AIA/CES requirements for continuing education, and qualifies for 1.0 Learning Units including 1.0 HSW LUs.
- Registration:** Register online at <http://goo.gl/ghxA0>. Space is strictly limited to the first 75 registrants, so register early. For additional information IMI at (630) 396-3144 or sconwell@imiweb.org.
